**2020-2023
IMPACT REPORT**
construction performance

All Homes Built & Tested

TerraView
custom homes

 **51**
Number of Residences

 **3060**
Projected Energy Reduction (GJ)

 **153**
Projected GHG Reduction (tCO₂e)

 **\$ 28,050**
Projected Operating Cost Reduction (\$)

88,286
litres

of gas which is equivalent
to 3 - 16' x 40' swimming
pools full.

708,557
kilometers

driven by a 2014 Ford
F150 4x4 5.0L.

29
homes

to be continuously
operated with energy for
one year.

14
hot air balloons filled with
C0₂.

14
acres

of forests that would have
been needed to sequester
the emissions C0₂ saved.

Project Achievements 10 Year Projection
